NATIONAL COLLECTION OF DATA - SWD

All schools within South Australia are currently identifying students who require additional accommodation under the National Students with Disability Definition. This data is being collected by the Department for Education and will be used to build a national picture of students' needs across our schools. Whilst students who are identified will not receive any additional funding or support than they are currently, the data could influence future school funding. Please let the front office know if you do not approve of your child/ren being included in the collection process.
