

The Junior Primary classes at Streaky Bay Area School learn how to read and spell through Jolly Phonics , an early literacy program. Jolly Phonics is a structured program that introduces the letters and sounds in a specific order. SPELD SA (Specific Learning Difficulties SA) have available a range of Jolly Phonics readers which are free to download. These readers complement the Jolly Phonics program used at Streaky Bay Area School. To access these phonic readers, click on this link:
