dispositions, student capabilities and subject/content knowledge. The increased importance of developing student dispositions and student capabilities sets the SA Curriculum apart from other states in Australia. Next term our staff will begin to familiarise themselves with the SA Curriculum as it will begin to be phased into schools from 2025 to 2027.

### No Hat, No Play

Term 4 and Term 1 pose sun exposure risks for our students when outdoors, to support good sun protection practices, the school has a No Hat, No Play policy for these terms. From the beginning of term 4 all students will be required to wear either a wide brimmed hat, or legionnaires style hat when outdoors for breaks or lessons. Please note that baseball/trucker style caps are not suitable, nor are hats with inappropriate advertising or messages (ie alcohol branding). Students who don't have hats at break times are required to play in the hard shade of the school buildings or go to the library, and may miss out on participating in outdoor lessons. Please ensure that your child/ren have an appropriate wide brimmed or legionnaires style had at the beginning of term 4.

## Year 9 Students Tackle Food Waste: A Successful Audit and Future Plans

### By Year 9 Students

Recently, our Year 9 students undertook an important project to address food waste at our school. Over the course of a week, they conducted a comprehensive food waste audit, engaging with classes, setting up designated bins, and meticulously weighing the waste collected each day. The results were eye-opening: a total of 18.93 kilograms of food waste was gathered, equivalent to the weight of 30 basketballs!

### Why This Matters

Food waste is a significant issue for several reasons. Firstly, it represents a squandered use of resources such as water, energy, and labour that go into producing food. Secondly, when food waste ends up in landfill, it decomposes and produces methane, a potent greenhouse gas that contributes to climate change. By understanding the scale of our food waste, we can take meaningful steps to reduce it, thereby conserving resources and mitigating environmental impact.

### Possible Upcoming Changes

In response to the findings, we will be working to introduce several initiatives aimed at reducing food waste across the school. Our initiative ideas include:

- **Compost Bins:** New compost bins may be placed around the school to encourage the proper disposal of organic waste.
- **Food management Programs:** We may launch programs to share or use excess food, ensuring that it doesn't go to waste.
- **Educational Campaigns:** Our students will continue to lead campaigns to educate everyone on how to reduce food waste, including tips on portion control, saving leftovers, and composting.

### Why Reducing Food Waste is Crucial

Reducing food waste is one of the simplest yet most impactful ways we can help the environment. By wasting less food, we can reduce our carbon footprint and conserve valuable resources. It's a small change that can make a big difference. We encourage everyone to think about how they can contribute to this effort in their daily lives.

### Get Involved

We need everyone's help to make these changes successful. Whether it's by taking only what you can eat, saving leftovers, or using the new compost bins, every little bit helps. Let's all work together to make our school a more sustainable place.

# Reception and 12 Buddy Class

Every fortnight the Year 12 class combine with the receptions and take part in planned learning activities. This last term we have worked hard to nurture our very own vegetable patch. We have watered, maintained and observed our vegetables grow from seedlings to mature plants. From this, we harvested some goods and selected some recipes. We made spinach and choc chip muffins and spinach and chocolate brownies. YUM!

# WELL-BEING WAGON

## LAUNCH DAY

The wellbeing wagon was launched on Thursday the 12th of September, which happened to coincide perfectly with R U OK day. The joy and happiness on the students' faces was everything as it provided us with the confidence that the Wellbeing Wagon will make a positive impact on our student's.

## WHAT'S IT ALL ABOUT?

The Wellbeing Wagon is a mobile resource filled with games, drawing materials, and activities designed to bring students together during lunch breaks. It was created to provide a positive space that fosters social interaction, creativity, connection, and inclusive, supportive play in a fun and engaging environment.

Toni and I are grateful to have received Lego and board game donations from Naomi Rogers. We would also like to thank Parents & Friends for donating the wagon and providing the funds needed to get the project off the ground.
